

Exercise 5

```
from transformers import pipeline

# Use a known summarization model
summarizer = pipeline("summarization", model="EbanLee/kobart-summary-v3")

# Input text to summarize
text = """Hugging Face is a pioneering open-source AI platform
that empowers developers, researchers, and organizations to easily access and
deploy cutting-edge machine learning models for natural language processing, computer vision,
and beyond-democratizing AI and accelerating innovation through a collaborative ecosystem of tools,
datasets, and community-driven contributions."""

# Generate summary
summary = summarizer(text, max_length=20, min_length=5, do_sample=False)
print(summary)
```
